**Engines :** 2 X 29 cv

**Accommodation :**

3 double cabins

**Builder :** Lebreton Yachts

**Price ex. tax :** 598 000 €

**[L]**overs of excitement, pleasure at the helm and fast cruising, here is the catamaran of your dreams...the Lebreton Sig 45! This catamaran was designed by the architects Lauriot Prévost and Van Peteghem, with help from Bruno Peyron and is intended quite simply to be the fastest of the 45-

footers!

But the strength of this catamaran is that it also offers real accommodation, allowing six persons to live aboard realistically... The interior was designed by Bjorn Johansson, who usually designs "super-yachts".

The Sig 45 is built entirely in carbon by

Indiana Yachting in Italy, and its (very) high-performance rig will nevertheless allow a shorthanded crew to sail the boat with no problems.

An exceptional catamaran, for lovers of very beautiful machines!
